

# END MY WAIT

for comprehensive services

## END THE WAIT for Christopher

- I currently live in Pagosa Springs with my mother.
- I've been waiting for comprehensive disability services for 12 years!
- It's important to get me and others like me living independently instead of with our parents, who can be enabling, even with their best intentions.
- A Personal Goal: I want to live independently as a 27-year-old man, with access to support services that would assist me in doing so.

“People with intellectual disabilities need the opportunity to be independent, but we also need support to be safe in our independence. Because of our disabilities, we need continued constant training and reinforcement of skills that many of you take for granted.”

-Christopher
