

Tracy Hodnett  
[thodnett@tre.org](mailto:thodnett@tre.org)

Tracy Hodnett is a TRE Care Integration Specialist who values dedication, and service to others. Tracy knows that service to others is a journey, not simply a destination. Her passion for equity, capacity building, and social justice derives from her life experience. As a Care Integration Specialist, Tracy, believes in an aspirational person-centered model of care designed to treat the whole person, beyond a diagnosis or condition, focused on the eventual goal of supporting people to achieve maximum health and quality of life. When you get right down to it, Tracy has an unrelenting passion for empowering people and lots of opinions about supporting those from marginalized communities. Her interest in delivering equitable care stems from her life experience as a woman of color and 20 plus years of caring for marginalized populations.
