Training Specialists

Serving All of Colorado

You've spent a lifetime making your own decisions and supporting your family's best interests. The in-home care you or your family require should be no different.

Consumer Directed Attendant Support Services (CDASS) is a Medicaid service option under the **Home and Community Based Services (HCBS) program**. CDASS empowers individuals to direct their own care needs rather than going through a home health agency.

How does CDASS Work?

- Your Case Manager works with you to determine your need and eligibility.
 - ◆ Based on your need, you are allocated funds to use in managing your care.
- A Financial Management Services (FMS) provider of your choice assists you with administrative, employment, and payroll-related tasks.
- As the Managing Employer, you are empowered to recruit, hire, train, and schedule your attendants.

How we help:
