

Thank You for ENDING MY WAIT

for comprehensive services

Meet Leo:

- I live in Cortez in my own apartment!
- I waited (off and on) for comprehensive services for 23 years.
- After my health deteriorated and I got robbed, I finally received comprehensive services in 2018.
- I feel safer, my health and medications are monitored, and my home is cleaner.
- I want to live in the community as independently as possible and having the support for health and safety continues to make a better quality of life possible.

“Without the services offered I feel that my life would be in danger; I would be homeless, my mental illness would be out of control, and I would have no support in the community.”

-Leo
